CAREER OBJECTIVE

Seeking a challenging and rewarding opportunity with a software engineering firm to use and grow my coding and analysis skills.

EDUCATION

B.Tech Computer Science, APJ Abdul Kalam University 2020 - 2024

XII Board, Kerala Board of Public Examinations 2018 - 2020

SKILLS

Technical Skills : Html, Css, Python, Streamlit.

Libraries and Framework : Pandas, Matplotlib, Beautiful Soup.

PROJECTS

Data analysis dashboard using streamlit application : This dashboard provides a basic interface for exploring and visualizing data from CSV files. It can be useful for tasks like data analysis, data cleaning, and data visualization. [Click here](#)

Build 5 python basic mini projects : The 5 python mini projects includes Adventure game, Rock paper scissors, Quiz game, Number guessing game, Password Manager. [Click here](#)

Chatgpt clone using streamlit : This project provides a basic implementation of a chatbot using Streamlit and OpenAI. It can be further enhanced by incorporating features like customization of the chatbot's personality, integration with other services, and handling potential errors. [Click here](#)

Braille Script Translator : Developed an innovative web application which converts Braille script into English text. As a part of final year project

E-Commerce Website : Developed a website for a leading hypermarket in palakkad that provides customer with real-time stock and pricing information. As a part of college mini project.

JCET Route Map Website : Developed for "NSITE 2023", A national Level tech fest at Jawaharlal College of Engineering and technology. The website outlines the events taking place during the tech fest using road map scanned using QR code. [Click here](#)
